

KlamaCor®

CARDIOVASCULAR HEALTH

KlamaCor

BASED ON APHAMAX®, NATTOZIMES®, PROTEXIL® AND LIPAXIL®

NUTRIGEA®
your health at 360°

KLAMACOR® IS RECOMMENDED:

- In cardiovascular problems;
- In diseases of the venous tract (varices, “heavy legs”);
- In the alterations of general metabolism
- In the affections of the arterial tract (plaque, etc.);

KlamaCor® is a nutri-therapeutic product based on AphaMax® (a patented Klamath algae extract concentrating its AFA-phyco cyanins), fungal enzymes and plant extracts, which thanks to its complex formula helps to deal with the most diverse aspects of cardiovascular problems, from lipid dysmetabolism (cholesterol, triglycerides), to the tonicity of the heart muscle, to proper blood circulation.

INGREDIENTS:

AphaMax® e.s. from microalgae Klamath (*Aphanizomenon flos aquae*), vegetable capsule (hydroxypropyl methylcellulose), Nattozimes® enzyme complex from plant substrates fermented with *Aspergillus oryzae* and *Aspergillus melleus* (Protease), Protexil® SP750 enzyme complex from fermented vegetable substrates® enzyme complex from plant substrates fermented with *Rhizopus oryzae* (Lipase), Hawthorn (*Crataegus oxyacantha L. et Crataegus monogyna Jacq.*) Flowers and leaves es (1,8% vitexin-2-rhamnoside and hyperoside), Guggul (*Commiphora mukul*) oleo-rubber-resin dry extract (10% guggulsterones), bulking agent: microcrystalline cellulose; Coenzyme Q10 (ubidecarenone), anti-caking agents: vegetable magnesium stearate, colloidal micronized silica; Chromium picolinate.

METHOD OF USE:

2 capsules 2-3 times a day, between meals.
